USA Property Investment

Quick investment guide

**Investing in the most profitable housing
markets in the world**

2010

A professional investment package

Key reasons to invest with UPI Ltd.

- **Low prices.** 2, 3 & 4 bedroom, fully refurbished properties - often 50% and more under today's market value.
- **High demand for rental property.** We only invest in markets where there is strong rental demand.
- **GUARANTEED rents.** In key areas we focus on tenants on the HUD scheme (Housing and Urban Development.) The government will pay the rents directly to you every month.
- **Predicted capital appreciation.** America is on sale right now. The best opportunities are in a buyers' market when prices have fallen. In the areas we focus on, prices have fallen to unprecedented levels – Massive capital appreciation is widely anticipated. Now is the time to invest.
- **Available mortgages.** We can provide a very attractive level of financing GUARANTEED for every one of our investors, with fixed rates from 3.95%. *We are currently the only company in the world able to guarantee financing for non US citizens.*
- **Rental yields.** As ex-homeowners have turned to rented accommodation demand has soared. A typical property on our program will attract the best tenants and highest rents due to the areas, styles, and quality of refurbishment we put into every property. *This means an average investment through UPI Ltd will return over 13%.*
- **Cash flow.** Why else do we invest? Cash is king in this business and our properties give our investors *guaranteed, high, positive cash flow every month.*

How Do Our Services Benefit Our Customers?

The services we provide are aimed at helping our clients become financially independent through their investments.

Some of the benefits of dealing with UPI Ltd are:

- **Leverage.** Our investments offer you a path to financial freedom. Within a few years of investing through UPI, we anticipate that you will become financially independent.
